AN ORCHID FOR OUR TEACHERS

to the future

Poem

REFLECTION

"Destinations unlimited!"
the starry-eyed cry.
"Our fathers conquered land;
we'll conquer the sky!"
Indeed, to the young,
the future is bright,
Each day bringing forth
a bright new light

LIMIT: YOURSELF

By the yardstick of knowledge
and material gain,
Success, my dear friend,
may be looked for in vain.
Sometimes these days,
too rushed, confused,
This yardstick of success
too much may be used.

WARNING: LIMIT NOT SUCCESS BY A YARDSTICK

Our fathers of old
did a jewel possess:
The ability to dream
in peaceful recess.
If time in thought
you spend each day,
This act, the role of a mirror
will play.

REFLECTION:

UNDERSTANDING OF OTHERS

Therefore, if daily you'll pray
and you'll dream,
Then begin to work toward
the visions you've seen--
A surprise of reward
will soon come to you:
You possess the intangible--
the material too!

CONCLUSION:

DREAMS + WORK = SUCCESS!

Class Prophecy

The following is the annual report taken from the official files of the Gyro-sonic Patrol:

Date: May 27, 1978
Time: 7:30 A.M.
Subject: Invasion of Destiny
To: The Rising Senior Class

1. It actually began with my receiving a space-o-gram, the subject of which was a request for my presence at the tryouts of the Supersede saucer. Said report was signed by EARL TOWERY and STEVE VOSLOH, chief engineers in charge of project "XYZ".
2. I reported to their lunar observatories this morning, where I was received by the cryptographer, MARIA MANESS, and stenographer, JOANNE STEVENSON. Taken out to the saucer, which was of unusual size, I was informed that the strange abilities of this invention included the physical aptness to see into buildings.
3. The flight began, and soon we were over Radium City. Looking into the "snooper-scope," the first thing we saw was a sign pointing out the "Electronic Material Maintenance Studios." We moved in closer to investigate. Result: JEAN GAMBLE, JEAN CREEDE, and NORMA COBLE reporting to work early in order to take care of the teenage rush for instructions on the new dance sweeping the universe-- "The Stratospheric Hop."
4. Next, we peered in on BERKLEY DILLON teaching new tricks to his former instructor, Bob Cummings. Employed by Berkley were LAWRENCE WALKER and NORMAN TOLBERT. We also recognized LEROY DODSON and ROY DUNCAN as promising students.
5. We found HELEN RABENHORST in her office creating cartographic designs for this International Geophysical Year. What won't our women think of next?
6. We were astounded at finding CAROLYN TIPPETT as head of the largest co-education academy, Spectroscopy Institute. ROY LEE GRAY, who has just been promoted to a full-time professorship, was advising his students on precision maintenance. We understand that his chief student, MARTHA SLEIGHT, plays with the "Universe Trotters."
7. Even in this highly advanced age there seems to be a need for love, with its ensuing problems and someone to solve them! We found JULIA CANTER doing just that, and JEANNE CHANDLER, marriage consultant, was helping her.
8. When we looked in on the "Institution for Diseased Personages," we met the medical supervisor, Dr. FRANK HALL; head nurse, MARY BETH WILSON; dietitian, VANZA DAVIS; technicians, MYRA HARRIS and VIRGINIA PUGH; and receptionist, JACKIE JOHNSON.
9. Next we visited DAVID STEWART's universally famous Cinerama. Now playing is Destinations Unlimited, which has had a thirty-day run already. We saw, starring in the movie, MONROE OZMENT, BECKY EDWARDS, and BONNIE DANLEY. We noticed that special recognition went to MARY RUTH WHITE, audio specialist; JIMMY McCASKILL, process photographer; and JUDY BARRICKS, lithographic plate developer.
10. In the "Universal Room of Knowledge," we found chief librarian, ALLIE MAE COCKERHAM, and her assistant, DALPHINE SNOW, checking and numbering books on space colonization.
11. Looking in on the Better Domiciles and Hydroponics Publishing Company, we saw RUBY MOSER, the new editor, with her assistants, JUDY BROOKBANK, and JUNE HODGIN. Judy and June scout for, and write, the "Who's Who" column.
12. Moving into outer space, we had to dodge an electro-jet piloted by ALLAN RYAN with his co-pilot DONALD McCANDLESS.
13. Shortly afterwards, we almost collided with SUSAN MOORE, who tests new space cruisers for GEORGE ROBBINS, the universe's foremost designer of space craft. His newest ship is the Doppler.
14. On the earth's new artificial satellite, Mimitrack, we found JANE MORGAN engaged in her missionary work. GERALD CLARK was co-operating by teaching, to the inhabitants of Mimitrack, advanced agriculture and the use of common farm implements such as the nuclear distributor, the deuterium turbine, and the hydrogen terracerator.
15. On returning to headquarters, we found that, as usual, BENNY KINLEY was still in a state of general confusion over the positions of the Supergiants and the Subgiants, and the Dwarfs, and the Subdwarfs, as compared to the Main Sequence. Said confusion was probably a partial result of worrying over the loss of his pet hen.

Due to the unique and secret nature of this report, I found it advisable to formulate said report myself.

Commencement Program

Junior-Senior Banquet	Friday, May 9, 1958 7:30 P. M.	Thomasville Woman's Club
Commencement Sermon	Sunday, May 25, 1958 8:00 P. M. Dr. C. B. Bowen Rev. G. B. Dodson	First Baptist Church
Graduation Exercises	Friday, May 30, 1958 8:00 P. M.	Sumner School Auditorium

For many youngsters, Tuesday, September 3, seemed to be a dark day indeed. But, it marked the date of forty-four seniors' triumph--their ending role as upper classmen!

The first month of instruction included such outside activities as the selection of cheerleaders and their chief, Judy Barricks; losing the first football game, but retaining school spirit; and the choice of the class officers. Leroy Dodson was elected president. Of amusement to everyone, including the faculty members, were the initiation performances of various clubs. A senior class meeting resulted in the election of the DRUMBEAT staff, with Jeanne Chandler and Berkley Dillon as co-editors.

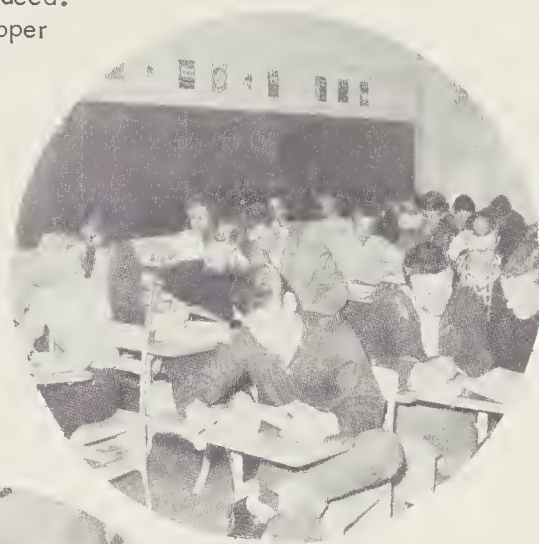

Later in September, the "annual-ad" crusade began. The seniors sold more advertisements than ever before during the week set aside for that purpose. Sales managers, Mary Ruth White and David Hedgecock, were employed collecting deposits on the largest total of yearbooks ever circulated by Sumner Indians.

September 25 was a memorable day to SUMNETTE staffers--their first paper! Creative writing, keeping columnar margins even, cutting and running a clear stencil, spelling and hyphenating correctly, meeting the deadline: all these perplexed the staffers.

History was made again in the success of the annual Halloween festivity. A high total was accumulated to be applied on the "future athletic field."

Sumner was honored by being selected to act as host for the annual "College Day" held at Greensboro High.

October closed on a rather studious note with five seniors taking the National Scholastic Qualifying Test.

YEARBOOK

VOTING

SENIOR PLAY

The Senior Class meeting time came again in November. In a series of meetings the class chose superlatives, mascots, class flower, dedication, motto, and class colors.

December began the basketball season; and soon, one of the Indians' favorite sports was well underway.

Another day of excessive work came with the photographer who took special pictures for the yearbook. There was the usual last-minute confusion, but everything went fairly smoothly until one of the props burst! Another had to be substituted.

Plans for holiday fun in celebration of Christ's birth soon were progressing as class committees planned the Christmas party for December 20, at the residence of Mr. Barton. And what a party that was! "Rare" steaks, Mr. Barton's "crazy" apron, mistletoe pranks by Mrs. Best--each one seemed to enjoy himself. A wonderful vacation and New Year's resolutions followed.

January: Students returned to the grim prospect of mid-term examinations and the task of putting "finishing touches" on the DRUMBEAT dummy. This job is more than it sounds, though, and many were the uneasy breaths before the annual came back for final inspection.

Spring arrived with lots of excitement, a time anticipated each year. The banquet, a finished annual, a class play, class night with the daisy chain, commencement sermon; all are memories to treasure forever. Then the most meaningful of all--graduation! That night the seniors had always dreamed of is past. School days will come no more; but, into the adult world forty-four individuals are introduced,—"Destinations Unlimited."

Last Will and Testament

I, JUDY BARRICK, will the spot of SUMNETTE editor to any junior who has the nerves and the feet.

I, JUDITH BROOKBANK will my shortness to Linda Smith.

JULIA CANTER leaves her place on the annual staff to her brother, if he is able to keep it up.

I, JEANNE CHANDLER, will my position as co-editor of the DRUMBEAT to any junior who has plenty of patience and lots of spare time.

I, NORMA COBLE, leave my superlative "Neatest" to my sister Mary, in hopes that she will live up to it.

I, ALLIE MAE COCKERHAM, leave my place in the library to anyone who likes to be "Quiet."

I, BOBBIE CREEDE, will my ability to get along with Mrs. Best to Ann Baxter, who I hear needs it.

Normally you think in terms of hundreds of dollars when you think of luxury. But, not so with the most worthwhile luxury of them all—life insurance.

Life insurance costs little yet gives unlimited benefits at a cost of only a few cents a day. Retirement income, money for your family, mortgage retirement or an educational program for your children are just a few of the many benefits provided by life insurance.

Call or write the Southern Life representative of your choice today. He will gladly tell you of the many luxuries provided by life insurance. There's no obligation of course.
